Comments on the News

"Companies of all sizes and industries continue to select Workday, and we're thrilled that as of the end of Q3, we have more than 3,000 customers and 42 million users," said Aneel Bhusri, co-founder and CEO, Workday. "As our community grows, so do our applications. We recently announced plans to deepen our offering for the office of finance with the intended acquisition of Scout RFP. We also unveiled several ways our customers can leverage leading machine learning capabilities that are powering our applications – helping them to make more informed decisions as they navigate this changing world of work."

"We executed well in the third quarter and delivered strong results, with subscription revenue growth of 28% and non-GAAP operating margin of 15%," said Robynne Sisco, co-president and chief financial officer, Workday. "We are well positioned as we enter our seasonally strongest quarter, and we are raising our fiscal 2020 subscription revenue outlook to \$3.085 billion to \$3.087 billion. We expect fourth-quarter subscription revenue of \$828.0 million to \$830.0 million. Our focus remains on driving durable growth, while also progressing towards our longer-term margin goals."

Use of Non-GAAP Financial Measures

Reconciliations of non-GAAP financial measures to Workday’s financial results as determined in accordance with GAAP are included at the end of this press release following the accompanying financial data. For a description of these non-GAAP financial measures, including the reasons management uses each measure, please see the section of the tables titled “About Non-GAAP Financial Measures.” A reconciliation of our forward outlook for non-GAAP operating margin with our forward-looking GAAP operating margin is not available without unreasonable efforts as the quantification of share-based compensation expense, which is excluded from our non-GAAP operating margin, requires additional inputs such as the number of shares granted and market prices that are not ascertainable.

Forward-Looking Statements

This press release contains forward-looking statements including, among other things, statements regarding Workday’s proposed acquisition of Scout RFP (the “Transaction”); our fiscal year and fourth quarter subscription revenue outlook; and our ability to drive durable growth while meeting long-term margin goals. The words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” “seek,” “plans,” “project,” “looking ahead,” “look to,” “move into,” and similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to risks, uncertainties, and assumptions. If the risks materialize or assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. Risks include, but are not limited to: (i) the risk that the Transaction may not be completed in a timely manner or at all; (ii) risks related to our ability to successfully integrate Scout RFP’s operations or failure to achieve the expected benefits of the Transaction or any other acquisition; (iii) our ability to implement our plans, objectives, and other expectations with respect to the Scout RFP business or that of any other acquired company; (iv) breaches in our security measures, unauthorized access to our customers’ or personal data, or disruptions in our data center operations; (v) our ability to manage our growth effectively; (vi) competitive factors, including pricing pressures, industry consolidation, entry of new competitors and new applications, advancements in technology, and marketing initiatives by our competitors; (vii) the development of the market for enterprise cloud applications and services; (viii) acceptance of our applications and services by customers and individuals, including any underlying technology such as machine learning, artificial intelligence, and blockchain; (ix) adverse changes in general economic or market conditions; (x) the regulatory, economic, and political risks associated with our domestic and international operations; (xi) the regulatory risks related to new and evolving technologies such as machine learning, artificial intelligence, and blockchain; (xii) delays or reductions in information technology spending; and (xiii) changes in sales, which may not be immediately reflected in our results due to our subscription model. Further information on these and additional risks that could affect Workday’s results is included in our filings with the Securities and Exchange Commission (“SEC”), including our Form 10-Q for the quarter ended July 31, 2019, and our future reports that we may file with the SEC from time to time, which could cause actual results to vary from expectations. Workday assumes no obligation to, and does not currently intend to, update any such forward-looking statements after the date of this release.

About Non-GAAP Financial Measures

To provide investors and others with additional information regarding Workday's results, we have disclosed the following non-GAAP financial measures: non-GAAP operating income (loss) and non-GAAP net income (loss) per share. Workday has provided a reconciliation of each non-GAAP financial measure used in this earnings release to the most directly comparable GAAP financial measure. Non-GAAP operating income (loss) differs from GAAP in that it excludes share-based compensation expenses, employer payroll tax-related items on employee stock transactions, and amortization of acquisition-related intangible assets. Non-GAAP net income (loss) per share differs from GAAP in that it excludes share-based compensation expenses, employer payroll tax-related items on employee stock transactions, amortization of acquisition-related intangible assets, non-cash interest expense related to our convertible senior notes, and income tax effects.

Workday's management uses these non-GAAP financial measures to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, for short- and long-term operating plans, and to evaluate Workday's financial performance. Management believes these non-GAAP financial measures reflect Workday's ongoing business in a manner that allows for meaningful period-to-period comparisons and analysis of trends in Workday's business as they exclude expenses that are not reflective of ongoing operating results. Management also believes that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating Workday's operating results and prospects in the same manner as management and in comparing financial results across accounting periods and to those of peer companies.

Management believes excluding the following items from the GAAP Condensed Consolidated Statements of Operations is useful to investors and others in assessing Workday's operating performance due to the following factors:

- *Share-based compensation expenses.* Although share-based compensation is an important aspect of the compensation of our employees and executives, management believes it is useful to exclude share-based compensation expenses to better understand the long-term performance of our core business and to facilitate comparison of our results to those of peer companies. Share-based compensation expenses are determined using a number of factors, including our stock price, volatility, and forfeiture rates that are beyond our control and generally unrelated to operational decisions and performance in any particular period. Further, share-based compensation expenses are not reflective of the value ultimately received by the grant recipients.
- *Other operating expenses.* Other operating expenses includes employer payroll tax-related items on employee stock transactions and amortization of acquisition-related intangible assets. The amount of employer payroll tax-related items on employee stock transactions is dependent on our stock price and other factors that are beyond our control and do not correlate to the operation of the business. For business combinations, we generally allocate a portion of the purchase price to intangible assets. The amount of the allocation is based on estimates and assumptions made by management and is subject to amortization. The amount of purchase price allocated to intangible assets and the term of its related amortization can vary significantly and are unique to each acquisition, and thus we do not believe it is reflective of ongoing operations.
- *Amortization of debt discount and issuance costs.* Under GAAP, we are required to separately account for liability (debt) and equity (conversion option) components of the convertible senior notes that were issued in private placements in June 2013, and September 2017. Accordingly, for GAAP purposes we are required to recognize the effective interest expense on our convertible senior notes and amortize the issuance costs over the term of the notes. The difference between the effective interest expense and the contractual interest expense and the amortization expense of issuance costs are excluded from management's assessment of our operating performance because management believes that these non-cash expenses are not indicative of ongoing operating performance. Management believes that the exclusion of the non-cash interest expense provides investors an enhanced view of Workday's operational performance.
- *Income tax effects.* We utilize a fixed long-term projected tax rate in our computation of the non-GAAP income tax provision to provide better consistency across the interim reporting periods. In projecting this long-term non-GAAP tax rate, we utilize a three-year financial projection that excludes the direct impact of share-based compensation and related employer payroll taxes, amortization of acquisition-related intangible assets, and amortization of debt discount and issuance costs. The projected rate considers other factors such as our current operating structure, existing tax positions in various jurisdictions, and key legislation in major jurisdictions where we operate. For fiscal 2020 and 2019, we determined the projected non-GAAP tax rate to be 17%. We will periodically re-evaluate this tax rate, as necessary, for significant events, based on our ongoing analysis of the 2017 U.S. Tax Cuts and Jobs Act, relevant tax law changes, material changes in the forecasted geographic earnings mix, and any significant acquisitions.

The use of non-GAAP operating income (loss) and non-GAAP net income (loss) per share measures have certain limitations as they do not reflect all items of income and expense that affect Workday's operations. Workday compensates for these limitations by reconciling the non-GAAP financial measures to the most comparable GAAP financial measures. These non-GAAP financial measures should be considered in addition to, not as a substitute for or in isolation from, measures prepared in accordance with GAAP. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore comparability may be limited. Management encourages investors and others to review Workday's financial information in its entirety and not rely on a single financial measure.
